

Innovation Award

Minaxi Goel

Senior User Experience Researcher

Innovation propels us forward, ignites breakthroughs and reshapes possibilities. This award celebrates those who dream big, challenge norms and push boundaries. These individuals showcase a growth mindset, are intellectually curious and want to make an impact.

- Minaxi streamlined the interview process for the Pulse of the Library customer interviews **by using automation and synchronized calendars**, saving the team many hours of manual work.
- She is **passionate about using new tools**, especially in the AI field, **to create efficiencies** and is always eager to share her knowledge with the team.
- Minaxi's use of a machine learning model to summarize key themes and action points has **increased the accuracy of the team's data and built credibility.**
